Title 3—THE PRESIDENT

Executive Order 10865

SAFEGUARDING CLASSIFIED INFORMATION WITHIN INDUSTRY

WHEREAS it is mandatory that the United States protect itself against hostile or destructive activities by preventing unauthorized disclosures of classified information relating to the national defense; and

WHEREAS it is a fundamental principle of our Government to protect the interests of individuals against unreasonable or unwarranted encroachment; and

WHEREAS I find that the provisions and procedures prescribed by this order are necessary to assure the preservation of the integrity of classified defense information and to protect the national interest; and

WHEREAS I find that those provisions and procedures recognize the interest of individuals affected thereby and provide maximum possible safeguards to protect such interests:

NOW, THEREFORE, under and by virtue of the authority vested in me by the Constitution and statutes of the United States, and as President of the United States and as Commander in Chief of the armed forces of the United States, it is hereby ordered as follows:

SECTION 1. (a) The Secretary of State, the Secretary of Defense, the Commissioners of the Atomic Energy Commission, the Administrator of the National Aeronautics and Space Administration, and the Administrator of the Federal Aviation Agency, respectively, shall, by regulation, prescribe such specific requirements, restrictions, and other safeguards as they consider necessary to protect (1) releases of classified information to or within United States industry that relate to bidding on, or the negotiation, award, performance, or termination of, contracts with their respective agencies, and (2) other releases of classified information to or within industry that such agencies have responsibility for safeguarding. So far as possible, regulations prescribed by them under this order shall be uniform and provide for full cooperation among the agencies concerned.

(b) Under agreement between the Department of Defense and any other department or agency of the United States, including, but not limited to, those referred to in subsection (c) of this section, regulations prescribed by the Secretary of Defense under subsection (a) of this section may be extended to apply to protect releases (1) of classified information to or within United States industry that relate to bidding on, or the negotiation, award, performance, or termination of, contracts with such other department or agency, and (2) other releases of clas-

sified information to or within industry which such other department or agency has responsibility for safeguarding.

(c) When used in this order, the term "head of a department" means the Secretary of State, the Secretary of Defense, the Commissioners of the Atomic Energy Commission, the Administrator of the National Aeronautics and Space Administration, the Administrator of the Federal Aviation Agency, and, in sections 4 and 8, includes the Attorney General. The term "department" means the Department of State, the Department of Defense, and the Atomic Energy Commission, the National Aeronautics and Space Administration, the Federal Aviation Agency, and, in sections 4 and 8, includes the Department of Justice.

SEC. 2. An authorization for access to classified information may be granted by the head of a department or his designee, including but not limited to, those officials named in section 8 of this order, to an individual, hereinafter termed an "applicant", for a specific classification category only upon a finding that it is clearly consistent with the national interest to do so.

SEC. 3. Except as provided in section 9 of this order, an authorization for access to a specific classification category may not be finally denied or revoked by the head of a department or his designee, including, but not limited to, those officials named in section 8 of this order, unless the applicant has been given the following:

(1) A written statement of the reasons why his access authorization may be denied or revoked, which shall be as comprehensive and detailed as the national security permits.

(2) A reasonable opportunity to reply in writing under oath or affirmation to the statement of reasons.

(3) After he has filed under oath or affirmation a written reply to the statement of reasons, the form and sufficiency of which may be prescribed by regulations issued by the head of the department concerned, an opportunity to appear personally before the head of the department concerned or his designee, including, but not limited to, those officials named in section 8 of this order, for the purpose of supporting his eligibility for access authorization and to present evidence on his behalf.

(4) A reasonable time to prepare for that appearance.

(5) An opportunity to be represented by counsel.

(6) An opportunity to cross-examine persons either orally or through written interrogatories in accordance with section 4 on matters not relating to the characterization in the statement of reasons of any organization or individual other than the applicant.

(7) A written notice of the final decision in his case which, if adverse, shall specify whether the head of the depart-

ment or his designee, including, but not limited to, those officials named in section 8 of this order, found for or against him with respect to each allegation in the statement of reasons.

SEC. 4. (a) An applicant shall be afforded an opportunity to cross-examine persons who have made oral or written statements adverse to the applicant relating to a controverted issue except that any such statement may be received and considered without affording such opportunity in the circumstances described in either of the following paragraphs:

(1) The head of the department supplying the statement certifies that the person who furnished the information is a confidential informant who has been engaged in obtaining intelligence information for the Government and that disclosure of his identity would be substantially harmful to the national interest.

(2) The head of the department concerned or his special designee for that particular purpose has preliminarily determined, after considering information furnished by the investigative agency involved as to the reliability of the person and the accuracy of the statement concerned, that the statement concerned appears to be reliable and material, and the head of the department or such special designee has determined that failure to receive and consider such statement would, in view of the level of access sought, be substantially harmful to the national security and that the person who furnished the information cannot appear to testify (A) due to death, severe illness, or similar cause, in which case the identity of the person and the information to be considered shall be made available to the applicant, or (B) due to some other cause determined by the head of the department to be good and sufficient.

(b) Whenever procedures under paragraphs (1) or (2) of subsection (a) of this section are used (1) the applicant shall be given a summary of the information which shall be as comprehensive and detailed as the national security permits, (2) appropriate consideration shall be accorded to the fact that the applicant did not have an opportunity to cross-examine such person or persons, and (3) a final determination adverse to the applicant shall be made only by the head of the department based upon his personal review of the case.

SEC. 5. (a) Records compiled in the regular course of business, or other physical evidence other than investigative reports, may be received and considered subject to rebuttal without authenticating witnesses, provided that such information has been furnished to the department concerned by an investigative agency pursuant to its responsibilities in connection with assisting the head of the department concerned to safeguard classified information within industry pursuant to this order.

(b) Records compiled in the regular course of business, or other physical evidence other than investigative reports, relating to a controverted issue which, because they are classified, may not be inspected by the applicant, may be received and considered provided that: (1) the head of the department concerned or his special designee for that purpose has made a preliminary determination that such physical evidence appears to be material, (2) the head of the department concerned or such designee has made a determination that failure to receive and consider such physical evidence would, in view of the level of access sought, be substantially harmful to the national security, and (3) to the extent that the national security permits, a summary or description of such physical evidence is made available to the applicant. In every such case, information as to the authenticity and accuracy of such physical evidence furnished by the investigative agency involved shall be considered. In such instances a final determination adverse to the applicant shall be made only by the head of the department based upon his personal review of the case.

Sec. 6. Because existing law does not authorize the Department of State, the Department of Defense, or the National Aeronautics and Space Administration to subpoena witnesses, the Secretary of State, the Secretary of Defense, or the Administrator of the National Aeronautics and Space Administration, or his representative, may issue, in appropriate cases, invitations and requests to appear and testify in order that the applicant may have the opportunity to cross-examine as provided by this order. So far as the national security permits, the head of the investigative agency involved shall cooperate with the Secretary or the Administrator, as the case may be, in identifying persons who have made statements adverse to the applicant and in assisting him in making them available for cross-examination. If a person so invited is an officer or employee of the executive branch of the Government or a member of the armed forces of the United States, the head of the department or agency concerned shall cooperate in making that person available for cross-examination.

Sec. 7. Any determination under this order adverse to an applicant shall be a determination in terms of the national interest and shall in no sense be a determination as to the loyalty of the applicant concerned.

Sec. 8. Except as otherwise specified in the preceding provisions of this order, any authority vested in the head of a department by this order may be delegated to the

(1) Under Secretary of State or a Deputy Under Secretary of State, in the case of authority vested in the Secretary of State;

(2) Deputy Secretary of Defense or an Assistant Secretary of Defense, in the case of authority vested in the Secretary of Defense;

(3) General Manager of the Atomic Energy Commission, in the case of authority vested in the Commissioners of the Atomic Energy Commission;

(4) Deputy Administrator of the National Aeronautics and Space Administration, in the case of authority vested in the Administrator of the National Aeronautics and Space Administration;

(5) Deputy Administrator of the Federal Aviation Agency, in the case of authority vested in the Administrator of the Federal Aviation Agency; or

(6) Deputy Attorney General or an Assistant Attorney General, in the case of authority vested in the Attorney General.

Sec. 9. Nothing contained in this order shall be deemed to limit or affect the responsibility and powers of the head of a department to deny or revoke access to a specific classification category if the security of the nation so requires. Such authority may not be delegated and may be exercised only when the head of a department determines that the procedures prescribed in sections 3, 4, and 5 cannot be invoked consistently with the national security and such determination shall be conclusive.

Chapter IX—Agricultural Marketing Service (Marketing Agreements and Orders), Department of Agriculture

[Milk Order 118]

PART 1018—MILK IN SOUTHEASTERN FLORIDA MARKETING AREA

Order Suspending Certain Provision

Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.), and of the order regulating the handling of milk in the Southeastern Florida marketing area (7 CFR Part 1018), it is hereby found and determined that:

(a) Section 1018.43(b)(1) of the order no longer tends to effectuate the declared policy of the Act; and

(b) Notice of proposed rule making, public procedure thereon, and 30 days notice of effective date hereof are impractical, unnecessary, and contrary to the public interest in that:

(1) This suspension order does not require of persons affected substantial or extensive preparation prior to the effective date;

(2) This suspension order is necessary to reflect current marketing conditions and to maintain orderly marketing conditions in the marketing area;

(3) This suspension order was requested by the cooperative association representing more than 95 percent of all producers on the market;

(4) Plant facilities within 350 miles from Boca Raton, Florida, are not adequate to handle the current volume of milk production for the Southeastern Florida market;

(5) Under existing circumstances, it is not possible to find a Class I use for all of the milk which will be transferred to nonpool plants; and

(6) A public hearing was held at Fort Lauderdale, Florida, on October 5-6, 1959, at which evidence was presented in support of an order amendment which would provide substantially the same relief as provided by this suspension order. Time does not permit the detailed

analysis of this record and the issuance of an appropriate amendment to the order. This suspension action will provide interim relief until such time as an appropriate amendment to the order can be made.

Therefore, good cause exists for making this order effective March 1, 1960.

It is therefore ordered, That the aforesaid provision of the order is hereby suspended effective March 1, 1960.

(Secs. 1-19, 48 Stat. 31, as amended; 7 U.S.C. 601-674)

Issued at Washington, D.C., this 18th day of February 1960.

INTERPRETATION 13: RECEIVING-TYPE TUBES
(SCHEDULE B No. 70824) AND ELECTRON
TUBES, N.E.C. (SCHEDULE B No. 70840)

The non-military versions (glass or metal) of types of electron tubes listed below are excepted from the entries presently on the Positive List under Schedule B Nos. 70824 and 70840. Military versions of tubes are identified by the use of the letter "W" following any standard tube designation indicated below. For example, 6J5 and 5AW4 are not on the Positive List; however, 6J5W and 5AW4W are on the Positive List since the letter "W" following the standard designation indicates that it is a military version.

Only tubes specifically listed are excluded from the Positive List. All other types are on the Positive List even though they may have similar characteristics.

It is hereby found that compliance with the notice of proposed rule making, public rule making procedures thereon, and effective date requirements of the Administrative Procedure Act is contrary to the public interest since these amendments of 33 CFR Parts 121 and 125 are to give effect to Executive Order 10173, as amended, and in the public interest should be placed in effect as soon as possible.

By virtue of the authority vested in me as Commandant, United States Coast Guard, by Executive Order 10173, as amended, the following amendments in this document are prescribed and shall become effective upon date of publication in the FEDERAL REGISTER:

SUBCHAPTER K—SECURITY OF VESSELS

PART 121—SPECIAL VALIDATION ENDORSEMENT FOR EMERGENCY SERVICE FOR MERCHANT MARINE PERSONNEL

1. Section 121.05 is amended to read as follows:

(b) Each Marine Inspection Office shall forward promptly to the Commandant each application for a special validation endorsement received by it.

(c) (1) Application for special validation endorsement shall be made under oath in writing and shall include applicant's answers in full to inquiries with respect to such matters as are deemed by the Commandant to be pertinent to the standards set forth in § 121.03, and to be necessary for a determination whether the character and habits of life of the applicant are such as to warrant the belief that his presence on board vessels of the United States would not be inimical to the security of the United States.

(2) If an applicant fails or refuses to furnish the required information or fails or refuses to make full and complete answer with respect to all matters of inquiry, the Commandant shall hold in abeyance further consideration of the application, and shall notify the applicant that further action will not be taken unless and until the applicant furnishes the required information and fully and completely answers all inquiries directed to him.

(d) (1) If, in the judgment of the Commandant, an application does not contain sufficient information to enable him to satisfy himself that the character and habits of life of the applicant are such as to warrant the belief that his presence on board vessels of the United States would not be inimical to the security of the United States, the Commandant may require the applicant to furnish, under oath in writing or orally, such further information as he deems pertinent to the standards set forth in § 121.03 and necessary to enable him to make such a determination.

(2) If an applicant fails or refuses to furnish such additional information, the Commandant shall hold in abeyance further consideration of the application, and shall notify the applicant that further action will not be taken unless and until the applicant furnishes such information.

(e) Upon receipt, the application and such further information as the Commandant may have required shall be referred, except in those instances where action on an application is held in abeyance pursuant to paragraphs (c) (2) or (d) (2) of this section, to a committee composed of a representative of the Legal Division, of the Merchant Vessel Per-

2. Section 121.09 is amended to read as follows:

§ 121.09 Holders of special validation endorsement.

(a) Whenever the Commandant is not satisfied that the character and habits of life of a holder of a document bearing a special validation endorsement are such as to warrant the belief that his presence on board vessels of the United States would not be inimical to the security of the United States, he will request the holder to furnish under oath in writing such information as he deems pertinent to the standards set forth in § 121.03 and necessary for a determination on this issue.

(b) If the holder fails or refuses to furnish such information within thirty (30) days after receipt of the Commandant's request, the Commandant may issue the written notice provided for in § 121.11(a).

(c) The holder's failure or refusal to furnish such information shall preclude a determination that the holder's character and habits of life are such as to warrant the belief that his presence on board vessels of the United States would not be inimical to the security of the United States.

(d) Upon receipt of such information as the Commandant may have required, the procedure prescribed in § 121.05(e) shall be followed.

(e) If the Commandant is satisfied that the character and habits of life of the holder are such as to warrant the belief that his presence on board vessels of the United States would not be inimical to the security of the United States, he shall notify the holder accordingly.

(f) If the Commandant is not satisfied that the character and habits of life of the holder are such as to warrant the belief that his presence on board vessels of the United States would not be inimical to the security of the United States, he shall notify the holder in writing as provided for in § 121.11.

applicant are such as to warrant the belief that his presence on waterfront facilities, and port and harbor areas, including vessels and harbor craft therein, would not be inimical to the security of the United States.

(2) The application also shall include applicant's complete identification, citizenship record, personal description, military record, if any, and a statement of the applicant's sponsor certifying the applicant's employment or union membership and that applicant's statements are true and correct to the best of sponsor's knowledge.

2. Section 125.29 is amended to read as follows:

§ 125.29 Insufficient information.

(2) If an applicant fails or refuses to furnish such additional information, the

Commandant shall hold in abeyance further consideration of the application, and shall notify the applicant that further action will not be taken unless and until the applicant furnishes such information.

(b) If the holder fails or refuses to furnish such information within thirty (30) days after receipt of the Commandant's request, the Commandant may issue the written notice provided for in § 125.35(a).

(c) The holder's failure or refusal to furnish such information shall preclude a determination that the holder's character and habits of life are such as to warrant the belief that his presence on waterfront facilities, and port and harbor areas, including vessels and harbor craft therein, would not be inimical to the security of the United States.

(d) Upon receipt of such information as the Commandant may have required, the procedure prescribed in § 125.29(b) shall be followed.

(e) If the Commandant is satisfied that the character and habits of life of the holder are such as to warrant the belief that his presence on waterfront facilities, and port and harbor areas, including vessels and harbor craft therein, would not be inimical to the security of the United States, he shall notify the holder accordingly.

A receipt acknowledging delivery of the notice shall be secured from the respondent or his agent and forwarded to the Docket Clerk, Room 2432, Post Office Department, Washington 25, D.C., to become a part of the official record.

(b) In the event no person can be found to accept service of the notice of hearing and complaint pursuant to paragraph (a) of this section, the notice may be delivered in the usual manner as other mail addressed to the respondent. A statement, showing the time and place of delivery, signed by the postal employee who delivered the notice of hearing shall be forwarded to the Docket Clerk and constitute evidence of service.

§ 201.11 Amendment of pleadings.

(a) Amendments proposed prior to the hearing shall be filed with the Docket Clerk, thereafter with the presiding officer.

(b) By consent of the parties a pleading may be amended at any time. Also, a party may move to amend a pleading at any time prior to the close of the hearing and, provided that the amendment is reasonably within the scope of the proceeding initiated by the complaint, permission shall be freely given when the amendment will facilitate the determination of an issue in controversy.

(c) When issues not raised by the pleadings but reasonably within the scope of the proceedings initiated by the complaint are tried by express or implied consent of the parties, they shall be treated in all respects as if they had been raised in the pleadings. Such amendments as may be necessary to make the pleadings conform to the evidence and to raise such issues shall be allowed at any time upon the motion of any party.

(d) If a party objects to the introduction of evidence at the hearing on the ground that it is not within the issues made by the pleadings, but fails to satisfy the presiding officer that an amendment of the pleadings would prejudice him on the merits, the presiding officer may allow the pleadings to be amended and may grant a continuance to enable the objecting party to rebut the evidence presented.

(e) The presiding officer may, upon reasonable notice and upon such terms as are just, permit service of a supplemental pleading setting forth transactions, occurrences, or events which have happened since the date of the pleading sought to be supplemented and which are relevant to any of the issues involved.

§ 201.12 Continuances and extensions.

Continuances and extensions will not be granted by the presiding officer except for good cause shown. Exceptional cause must be shown before an additional continuance or extension will be granted.

(a) The evidence to be offered in such place;

(b) The names and addresses of the witnesses who will testify;

(c) The reasons why such evidence cannot be produced at Washington, D.C.

The presiding officer shall give consideration to the convenience and necessity of the parties and the relevancy of the evidence to be offered.

(7) Order pre-hearing conferences for the settlement or simplification of issues by consent of the parties;

(8) Order the proceeding re-opened at any time prior to his decision for the receipt of additional evidence;

(9) Render an initial decision, which becomes the final departmental decision unless a timely appeal is taken.

§ 201.17 Evidence.

(a) Except as otherwise provided in the rules of this subpart, the rules of evidence governing civil proceedings in matters not involving trial by jury in the courts of the United States shall govern. However, such rules may be relaxed to the extent that the presiding officer deems proper to insure a fair hearing. The presiding officer shall exclude irrelevant, immaterial or repetitious evidence.

(b) Testimony shall be under oath or affirmation and witnesses shall be subject to cross-examination.

(c) Agreed statements of fact may be received in evidence.

(d) Official notice or knowledge may be taken of the types of matters of which judicial notice or knowledge may be taken.

(e) Authoritative writings of the medical or other sciences, may be admitted in evidence but only through the testimony of expert witnesses or by stipulation.

(f) Lay testimonials will not be received in evidence as proof of the efficacy or quality of any product or thing sold through the mails.

(g) The written statement of a competent witness may be received in evidence provided that such statement is relevant to the issues, that the witness shall testify under oath at the hearing that the statement is in all respects true, and, in the case of expert witnesses, that the statement correctly states his opinion or knowledge concerning the matters in question.

(h) A party who objects to the admission of evidence shall make a brief statement of the grounds for the objection. Formal exceptions to the rulings of the presiding officer are unnecessary.

§ 201.18 Subpoenas.

The Post Office Department is not authorized by law to issue subpoenas requiring the attendance or testimony of witnesses.

The Post Office Department does not pay fees and expenses for respondent's witnesses or for depositions requested by respondent.

§ 201.20 Depositions.

(a) Not later than five days after the filing of respondent's answer, any party may file application with the Docket Clerk for the taking of testimony by deposition. In support of such application the applicant shall submit under oath or affirmation a statement setting out the reasons why such testimony should be taken by deposition, the time and the place, and the name and address of the witness whose deposition is desired, the subject matter of the testimony of each witness, its relevancy, and the name and address of the person before whom the deposition is to be taken.

(b) If the application be granted, the order for the taking of the deposition will specify the time and place thereof, the name of the witness, the person before whom the deposition is to be taken and any other necessary information.

(c) Each witness testifying upon deposition shall be duly sworn, and the adverse party shall have the right to cross-examine. The questions and answers together with all objections, shall be reduced to writing and, unless waived by stipulation of the parties, shall be read to and subscribed by the witness in the presence of the deposition officer who shall certify it in the usual form. The deposition officer shall file the testi-

mony taken by deposition as directed in the order. The deposition officer shall put the witness on oath. All objections made at the time of the examination shall be noted by the deposition officer and the evidence objected to shall be taken subject to the objections. In lieu of participating in the oral examination, a party may transmit written interrogatories to the officer, who shall propound them to the witness and record the answers verbatim. Objections to relevancy or materiality of testimony, or to errors and irregularities occurring at the oral examination in the manner of taking the deposition, in the form of the questions or answers, in the oath or affirmation, or in the conduct of the parties and errors of any kind which might be obviated, cured or removed if promptly presented, are waived unless timely objection is made at the taking of the deposition.

(d) At the hearing any part or all of the deposition may be offered in evidence by any party who was present or represented at the taking of the deposition or who had notice thereof. If the deposition is not offered and received in evidence, it shall not be considered as a part of the record in the proceeding. The admissibility of depositions or parts thereof shall be governed by the rules of evidence.

(e) The party requesting the deposition shall pay all fees required to be paid to witnesses and the deposition officer, and shall provide an original and one copy of the deposition for the official record, and shall serve one copy upon the opposing party.

(f) Within the United States or within a territory or insular possession, subject to the dominion of the United States, depositions may be taken before an officer authorized to administer oaths by the laws of the United States or of the place where the examination is held; within a foreign country, depositions may be taken before a secretary of an embassy or legation, consul general, vice consul or consular agent of the United States, or any other person designated in the order for the taking of a deposition.

(g) Depositions may also be taken and submitted on written interrogatories in substantially the same manner as depositions taken by oral examination. When a deposition is taken upon written interrogatories and cross-interrogatories, none of the parties shall be present or represented, and no person, other than the witness, a stenographic reporter, and the officer shall be present at the examination of the witness, which fact shall be certified by the officer, who shall propound the interrogatories and cross-interrogatories to the witness in their order and reduce the testimony to writing in the witness' own words.

§ 201.21 Transcript.

(a) Hearings shall be stenographically reported by a contract reporter of the Post Office Department under the supervision of the assigned presiding officer. No oral argument upon any matter shall be included in the transcript unless

ordered by the presiding officer. A copy of the transcript shall be a part of the record and the sole official transcript of the proceeding. Copies of the transcript shall be supplied to the parties to the proceeding by the reporter at rates not to exceed the maximum rates fixed by contract between the Post Office Department and the reporter. Copies of parts of the official record other than the transcript may be obtained by the respondent from the reporter upon the payment to him of a reasonable price therefor.

(b) Changes in the official transcript may be made only when they involve errors affecting substance and then only in the manner herein provided. No physical changes shall be made in or upon the official transcript, or copies thereof, which have been filed with the record. Within 10 days after the receipt by any party of a copy of the official transcript, or any part thereof, he may file a motion requesting correction of the transcript. Opposing counsel shall notify the presiding officer in writing of his concurrence or disagreement with the requested corrections. Thereafter, the presiding officer shall by order specify the corrections to be made in the transcript. The presiding officer on his own initiative may order corrections to be made in the transcript with prompt notice to the parties of the proceeding. Any changes ordered by the hearing examiner other than by agreement of the parties shall be subject to objection and exception.

§ 201.22 Proposed findings and conclusions.

(a) Each party to a proceeding, except one who fails to answer the complaint or having answered, either fails to appear at the hearing or indicates in the answer that he does not desire to appear, may, unless at the discretion of the presiding officer such is not appropriate, submit proposed findings of fact, conclusions of law and supporting reasons either in oral or written form in the discretion of the presiding officer. The presiding officer may also require parties to any proceeding to submit proposed findings of fact and conclusions of law with supporting reasons. Unless given orally the date set for filing of proposed findings of fact and conclusions of law shall be within 15 days after the delivery of the official transcript to the Docket Clerk who shall notify both parties of the date of its receipt. The filing date for proposed findings shall be the same for both parties. If not submitted by such date, or unless extension of time for the filing thereof is granted, they will not be included in the record or given consideration.

(b) Except when presented orally before the close of the hearing, proposed findings of fact shall be set forth in serially numbered paragraphs and shall state with particularity all evidentiary facts in the record with appropriate citations to the transcript or exhibits supporting the proposed findings. Each proposed conclusion shall be separately stated.

§ 201.23 Initial decision.

(a) The hearing examiner may render an oral initial decision at the close of the hearing when the nature of the case and the public interest warrant. A party who desires an oral initial decision shall notify the hearing examiner and the opposing party at least 5 days prior to the date set for hearing. Either party may submit proposed findings either orally or in writing at the conclusion of the hearing.

(b) If an oral initial decision is not rendered, a written initial decision shall be rendered at the earliest possible date. The initial decision shall become the final departmental decision unless an appeal is perfected according to the provisions of § 201.24.

(c) The initial decision of the hearing examiner shall include findings and conclusions with the reasons therefor upon all the material issues of fact or law presented on the record, and the appropriate order or denial thereof.

§ 201.24 Appeal from initial decision.

(a) A party in a proceeding, except one who failed to file an answer, may appeal to the Judicial Officer by filing exceptions in a brief on appeal within 15 days from the receipt of the examiner's initial decision.

(b) If an initial decision is rendered orally by the hearing examiner at the close of the hearing, he may then orally give notice to the parties participating in the hearing of the time limit within which an appeal must be filed. Such time limit shall not exceed 15 days from the date of the receipt of the transcript by the parties.

(c) Upon receipt of the appeal brief the Docket Clerk shall promptly transmit the record of the proceedings to the Judicial Officer. The date for the filing of the reply brief is ten days after receipt of the appeal brief. No additional briefs shall be received unless requested by the Judicial Officer.

(d) Briefs upon appeal shall be filed in triplicate with the Docket Clerk and contain the following matter in the order indicated:

(1) A subject index of the matters presented, with page references; a table of cases alphabetically arranged; a list of statutes and texts cited with page references.

(2) A concise abstract or statement of the case.

(3) Numbered exceptions to specific findings and conclusions of fact or conclusions of law of the presiding officer.

(4) A concise argument clearly setting forth points of fact and of law relied upon in support of each exception taken, together with specific references to the parts of the record and the legal or other authorities relied upon.

(e) Unless permission is granted by the Judicial Officer no brief shall exceed fifty printed or one hundred typewritten pages double spaced.

(f) The Judicial Officer will extend the time to file briefs only upon written application for good cause shown. The Docket Clerk shall promptly notify the applicant of the decision of the Judicial Officer on the application. If the appeal

brief is not filed within the time prescribed, the defaulting party will be deemed to have abandoned the appeal, and the initial decision shall become the final departmental decision.

§ 201.25 Judicial officer.

The Judicial Officer is authorized to render the final departmental decision upon appeal and to issue departmental orders for the Postmaster General. He will consider the entire record including the initial decision and the exceptions to that decision. Before he renders a final departmental decision, he may order the hearing reopened for the hearing examiner to take additional evidence. Upon the perfection of an appeal the Judicial Officer shall render the departmental decision or refer the matter to the Postmaster General or the Deputy Postmaster General for decision.

§ 201.26 Orders.

If an order is issued which prohibits delivery of mail to a respondent it shall be incorporated in the record of the proceeding. The Docket Clerk shall cause the order to be published in the Postal Bulletin and transmitted to such postmasters and other officers and employees of the postal service as may be required to place the order into effect.

§ 201.27 Modification or revocation of orders.

A party against whom an order has been issued may file an application for modification or revocation with the Docket Clerk. The General Counsel shall make written reply to the application and a copy shall be delivered to the applicant by the Docket Clerk. Thereafter an order granting or denying such application will be issued by the Judicial Officer.

§ 201.28 Supplemental orders.

When the General Counsel or his designated representative shall have reason to believe that a person is evading or attempting to evade the provisions of any such order by conducting a similar enterprise under a different name or at a different address he may file a petition with accompanying evidence setting forth the alleged evasion or attempted evasion and requesting the issuance of a supplemental order against the name or names allegedly used. Notice shall then be given by the Docket Clerk to the person that the order has been requested and that an answer may be filed within ten days of the notice. The Judicial Officer shall thereafter render a decision granting or denying the supplemental order.

§ 201.29 Computation of time.

A designated period of time under the rules in this subpart excludes the day the period begins, and includes the last day of the period unless the last day is a Saturday, Sunday or legal holiday, in which event the period runs until the close of business on the next business day.

§ 201.30 Official record.

The transcript of testimony together with all pleadings, orders, exhibits, briefs

and other documents filed in the proceeding shall constitute the official record of the proceeding.

§ 201.31 Public information.

The Law Librarian of the Post Office Department maintains for public inspection in the Law Library copies of all initial and departmental decisions. The Docket Clerk maintains a complete official record of every proceeding.

Title 47—TELECOMMUNICATION

Chapter I—Federal Communications Commission

[Docket No. 13193, FCC 60-152]

PART 3—RADIO BROADCAST SERVICES

Table of Assignments; Television Broadcast Stations in Alabama

Amendment of § 3.606 *Table of assignments*, Television Broadcast Stations; Andalusia, Birmingham, Clanton, Demopolis, Dothan, Florence, Gadsden, Munford, Opelika, Sylacauga, and Tuscaloosa, Ala.

1. The Commission has before it for consideration its notice of proposed rule making in the above Docket wherein the Commission, on its own motion, has proposed certain changes in the Table of Assignments, Television Broadcast Stations, in the Alabama area in order to reserve eight additional UHF channels for educational use, together with the comments filed therein.

2. There are at the present time three VHF channels assigned and reserved for education in Alabama at Andalusia, Birmingham, and Munford. All are in operation. In addition, there are four UHF assignments for education, but none of these are in use. A desire for additional educational reservations of UHF channels has been expressed to further extend the State-wide network and in some cases to provide in-school telecasting on a State-wide basis.

3. Comments in support of the proposal were filed by the Alabama Educational Television Commission (AETC) and the Joint Council on Educational Television (JCET). The Alabama Educational Television Commission alleges that the three activated educational VHF channels in Alabama (WAIQ, Channel 2; WBIQ, Channel 10; WTIQ, Channel 7) constituting the nation's first educational television network, are serving efficiently in their coverage areas but that many parts of the State are yet unserved. The changes proposed herein will make possible total educational television coverage of the State and also provide a basis for the beginning of a two channel State educational television network for service such as Pittsburgh, Pennsylvania, has established for its local area. The AETC contends that the growing acceptance of educational television by the educators and the lay pub-

lic in Alabama has necessitated an increase in the five day per week broadcast schedule to 67½ hours a week. It avers that the only possibility for a future appreciable extension of in-school television instruction will be by adding channels for duplicate time service. It states that the allocations proposed herein will permit the actual overall planning of a totally comprehensive broadcasting system capable of assuming an ever increasing responsibility in public education at all levels. The necessary program of public support, according to the AETC, can best be planned and promoted when a solid basis of allocated channels is used as a foundation. The confidence and encouragement obtained from the allocation of the requested channels, it concludes, will serve to spark the expansion and completion of the present network.

4. The Joint Council on Educational Television states that Alabama is one of the leaders in the field of educational television and that the reservations proposed herein will enable it to provide for total educational television coverage of the State and also make possible a two-channel State educational television network.

5. WTVY, Inc., licensee of Station WTVY, Dothan, Alabama, has filed comments in opposition to the proposal. However, its opposition was based upon our stay of the change in the Table of Assignments which would remove Channel 9 from Dothan and replace it with Channel 4. (FCC 59-910.) That stay has now been lifted and the proceedings in Docket No. 12054 completed (FCC 60-81, released February 1, 1960). Its specified objection, therefore, has now been obviated. The only further statement by WTVY, Inc., is that it objects if the proposal results in sub-standard spacings and causes interference to WTVY. No sub-standard spacings are involved nor are any of the changes that of either a co-channel or adjacent channel to Channel 4 at Dothan.

6. The desirability of the proposed changes clearly appearing, there being no stated objection thereto, and no commercial interest having been evinced as to the assignments involved, it appears that the public interest would be served by the changes as proposed. In taking this action the Commission has considered the possible results in this area which might flow from the eventual adoption of any of the presently-considered long-term allocations solutions. An important consideration in this regard was the possible effect of this decision should an all UHF system eventually be adopted. Should such be the case, however, additional UHF channels could be allocated for commercial use in Alabama and the public interest served by both educational and commercial stations.

7. Authority for the adoption of the amendments herein is contained in sections 4(i), 303 and 307(b) of the Communications Act of 1934, as amended.

8. In view of the foregoing: *It is ordered*, That effective March 25, 1960, § 3.606 *Table of assignments*, Television Broadcast Stations, for the State of Alabama is amended, with respect to the communities involved, to read as follows:

Public Hearing on Proposed Changes

The Merchant Marine Council will hold a Public Hearing on Monday, April 4, 1960, commencing at 9:30 a.m., in the Departmental Auditorium between 12th and 14th Streets on Constitution Avenue NW., Washington, D.C., for the purpose of receiving comments, views, and data on certain proposed changes in the navigation and vessel inspection regulations as generally described in Items I to XII, inclusive, in a separate pamphlet entitled "Merchant Marine Council Public Hearing Agenda" (CG-249), dated April 4, 1960. In addition, as a part of "Item XII—Miscellaneous Proposals," a separate item regarding "renewal of masters', mates', or pilots' licenses," as described in this document, will be considered at this Public Hearing.

Comments on the proposed regulations are invited. If it is believed a comment, view, or suggestion clarifies or improves a proposed regulation or amendment, it is changed accordingly and, after adoption by the Commandant, the revised regulation is published in the FEDERAL REGISTER. Each person who desires to submit written comments, data, or views in connection with the proposed regulation set forth in this document should submit them to the Commandant (CMC), U.S. Coast Guard Headquarters, Washington 25, D.C., so that they will be received prior to April 4, 1960. Comments, data or views may be presented orally or in writing at the Public Hearing before the Merchant Marine Council on April 4, 1960.

RENEWAL OF MASTERS', MATES', OR PILOTS' LICENSES

The safe navigation of any vessel requires that the persons in charge of navigation be thoroughly familiar with and thoroughly understand how to apply the applicable Rules of the Road. In order to insure that all licensed deck officers and operators keep currently familiar with the applicable Rules of the Road, it is proposed that, as a condition of renewal of his license, every master, mate, pilot, or operator will be required to answer questions on the Rules of the Road applicable to the waters for which he is licensed.

It is proposed to amend § 10.02-9 by revising paragraph (b) (5), inserting a new paragraph (b) (6), and by revising paragraph (e) to read as follows:

§ 10.02-9 Requirements for renewal of license.

(b) Application for renewal. * * *

(5) An applicant for renewal of a master's, mate's, or pilot's license shall present documentary evidence of service on the waters for which licensed, obtained within the three years next preceding the date of application.

(6) Answers in his own handwriting to questions on the applicable Rules of the Road propounded by the Officer in Charge, Marine Inspection, to whom application is made. In preparing his answers the applicant may use reference texts.

(e) Masters', mates', or pilots' licenses. Every Officer in Charge, Marine Inspection, shall before renewing an existing license issued to a master, mate, or pilot who has been employed on the waters for which licensed during the three years next preceding the date of application, require the applicant to answer in writing questions on the applicable Rules of the Road. In preparing his answers the applicant may use reference texts. An applicant for renewal who has not been employed on the waters for which licensed during the three years next preceding the date of application shall be given an examination in the applicable Rules of the Road. The use of reference texts will not be allowed during this examination.

TEXTILE FIBER PRODUCTS IDENTIFICATION ACT

Notice of Proposed Rule Making

Notice is hereby given all interested parties that the Federal Trade Commission will, on the 10th day of March 1960, at its offices in the City of Washington, District of Columbia, give consideration to an amendment of §§ 303.14, 303.16(b), 303.29(a), and 303.45 (Rules 14, 16(b), 29(a), and 45) of Part 303, Rules and Regulations under the Textile Fiber Products Identification Act.

Interested parties may participate by submitting in writing to the Commission on or before such date, their views, arguments, or other data. Written rebuttal may be submitted until March 15, 1960.

Such action is taken pursuant to the authority given to the Federal Trade Commission under section 7(c) of the Textile Fiber Products Identification Act (72 Stat. 1717; 15 U.S.C. 70) "to make such rules and regulations, including the establishment of generic names of manufactured fibers, under and in pursuance of the terms of this Act as may be necessary and proper for administration and enforcement."

The matters to be considered are:

1. An amendment of § 303.14 (Rule 14), which would hereafter read:

§ 303.14 Products containing unknown fibers.

(a) Where a textile fiber product is made from miscellaneous scraps, rags, odd lots, textile by-products, or waste materials of unknown, and for practical purposes, undeterminable fiber content, the required fiber content disclosure may, when truthfully applicable, indicate that such product is composed of miscellaneous scraps, rags, odd lots, textile by-products, or waste materials, as the case may be, of unknown or undetermined fiber content, as for example:

Made of miscellaneous scraps of undetermined fiber content.

Made of miscellaneous rags of undetermined fiber content.

Made of miscellaneous odd lots of undetermined fiber content.

Made of miscellaneous textile by-products of undetermined fiber content.

Made of miscellaneous waste materials of undetermined fiber content.

(b) Where a textile fiber product is made in part from miscellaneous scraps, rags, odd lots, textile by-products, or waste materials of unknown and, for practical purposes, undeterminable fiber content together with a percentage of

known or determinable fibers, the required fiber content disclosure may, when truthfully applicable, indicate the percentage of miscellaneous scraps, rags, odd lots, textile by-products, or waste materials and the percentage of known fibers, as for example:

45% Rayon
30% Acetate
25% Miscellaneous scraps of undetermined fiber content.

60% Cotton
40% Miscellaneous rags of undetermined fiber content.

40% Acrylic
30% Modacrylic
30% Miscellaneous odd lots of undetermined fiber content.

50% Polyester
30% Cotton
20% Miscellaneous textile by-products of undetermined fiber content.

45% Acetate
30% Cotton
25% Miscellaneous waste materials of undetermined fiber content.

(c) No representation as to fiber content shall be made as to any textile fiber product or any portion of a textile fiber product designated as composed of undetermined fibers. If any such representation is made, a full and complete fiber content disclosure shall be required.

(d) Nothing contained in this section shall excuse a full disclosure as to fiber content if the same is known or practically ascertainable.

§ 303.16 [Amendment]

(2) An amendment of paragraph (b) of § 303.16 (Rule 16), which would hereafter read:

(b) All parts of the required information shall be conspicuously and separately set out on the same side of the label in such a manner as to be clearly legible and readily accessible to the prospective purchaser, and all parts of the fiber content information shall appear in type or lettering of equal size and conspicuousness: *Provided, however*, That the required name or registered identification number may appear on the reverse side of the label if it is conspicuous and accessible, and provided further, that the required name or registered identification number or the information required by subparagraph (3) of paragraph (a) of this section may be conspicuously set out on a separate label which is prominently and conspicuously displayed in close proximity to the label containing the other required information. Where only one end of a cloth label is sewn to the product in such a manner that both sides of the label are readily accessible to the prospective purchaser, the required fiber content information may appear on the reverse side of the label if the front side of such label clearly and conspicuously shows the

wording "Fiber Content on Reverse Side." On products as to which sectional disclosure is used, an additional nondeceptive label may be used showing the complete fiber content information as to a particular section or area of the product.

§ 303.29 [Amendment]

3. Amendment of paragraph (a) of § 303.29 (Rule 29), which would hereafter read:

(a) Where a textile fiber product consists of two or more parts, units, or items of different fiber content, a separate label containing the required information shall be affixed to each of such parts, units, or items showing the required information as to such part, unit, or item: *Provided*, That where such parts, units, or items are marketed or handled as a single product or ensemble and are sold and delivered to the ultimate consumer as a single product or ensemble, the required information may be set out on a single label in such a manner as to separately show the fiber composition of each part, unit, or item.

§ 303.45 [Amendment]

4. An amendment of paragraph (a) of § 303.45 (Rule 45) by adding another subparagraph thereto so as to exclude the products listed in such subparagraph from the operation of the Act pursuant to section 12(b) of the Act. Such subparagraph would follow subparagraph (6) of paragraph (a) of § 303.45, and would read:

(7) All curtains, casements, draperies, and table place mats, or any portions thereof otherwise subject to the Act, made principally of slats, rods, or strips, composed of wood, metal, plastic, or leather.

5. An amendment of paragraph (b) of § 303.45 (Rule 45), which would hereafter read:

(b) The exclusions provided for in paragraph (a) of this section shall not be applicable (1) if any representations as to the fiber content of such products are made on any label or in any advertisement without making a full and complete fiber content disclosure on such label or in such advertisement in accordance with the Act and regulations with the exception of those products excluded by subparagraph (6) of paragraph (a), or (2) if any false, deceptive, or misleading representations are made as to the fiber content of such products.

[Project No. 2134]

RICHVALE IRRIGATION DISTRICT

Notice of Application for License

FEBRUARY 16, 1960.

Public notice is hereby given that Richvale Irrigation District, of Richvale, California, has filed application under the Federal Power Act (16 U.S.C. 791a-825r) for license for proposed water-power Project No. 2134, to be known as the Middle Fork Project and located on the Middle Fork of the Feather River and its tributaries Big Grizzly Creek and Frazier Creek in Butte, Plumas and Sierra Counties, California, in the vicinity of Oroville, Portola, and Quincy, California, and to consist of four storage dams and reservoirs aggregating gross capacity of 328,810 acre-feet, four forebay dams, five power tunnels with aggregate length of about 23.2 miles, and five powerhouses with total installed generating capacity of 220,000 kilowatts driven by turbines rated at 303,000 horsepower. These proposed project features are more specifically described as follows: Nelson Point Dam and Reservoir, consisting of a concrete arch dam about 350 feet high located on the Middle Fork of Feather River approximately one-half mile downstream from the confluence of Bachs Creek; a reservoir with gross capacity of 116,000 acre-feet at maximum storage elevation of 4,030; and Powerhouse No. 1 served by a tunnel about 0.4 mile long and containing a single turbine rated 27,000 horsepower driving a generator rated 20,000 kilowatts; Clio Dam and Reservoir, consisting of an earth-fill dam about 155 feet high located on the Middle Fork of Feather River approximately at the confluence of Mohawk Creek and impounding a reservoir with gross capacity of 156,400 acre-feet at maximum storage elevation of 4,510; Gold Lake Dam and

Reservoir, consisting of an earth-fill dam about 30 feet high located at existing Gold Lake on Frazier Creek and enlarging Gold Lake to form a reservoir with usable capacity of 15,190 acre-feet at maximum storage elevation of 6,425; Grizzly Dam and Reservoir, consisting of a concrete arch dam about 85 feet high located on Big Grizzly Creek approximately 6 miles upstream from its confluence with Middle Fork of Feather River and impounding a reservoir with gross capacity of 40,500 acre-feet at maximum storage elevation of 5,760; and Powerhouses Nos. 2, 3, 4, and 5. Four additional powerhouses would utilize the 2,800-foot drop in the 37 miles of Middle Fork of Feather River between the discharge of Powerhouse No. 1 and the confluence of Fall River with Middle Fork, each powerhouse to be supplied through a tunnel into which water is diverted by a forebay dam of concrete-arch overflow type.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D.C., in accordance with the rules of practice and procedure of the Commission (18 CFR 1.8 or 1.10). The last date upon which protests or petitions may be filed is March 28, 1960. The application is on file with the Commission for public inspection.

[Docket No. G-20120]

TRANSCONTINENTAL GAS PIPE LINE CORP.

Notice of Application and Date of Hearing

FEBRUARY 16, 1960.

Take notice that on November 10, 1959, Transcontinental Gas Pipe Line Corporation (Applicant) filed an application in Docket No. G-20120, pursuant to section 7(c) of the Natural Gas Act, for a certificate of public convenience and necessity seeking authorization to make a firm sale of up to 1,400 Mcf of natural gas per day to the United Gas Improvement Company (UGI) for resale in UGI's Hazleton District, Monroe County, Pennsylvania, and to construct and operate a meter station about 16 miles northeast of the Town of Hazleton in order to effect the proposed sale, all as more fully set forth in the application on file with the Commission and open to public inspection.

The application shows that UGI proposes to construct approximately 25 miles of 6-inch lateral pipeline extending from Transco's proposed meter station on its Leidy Line near Blakeslee, Pennsylvania, in a general westerly direction to the Town of Hazleton. This lateral with appurtenances is estimated to cost UGI approximately \$675,000. The existing Hazleton distribution facilities will be used for the distribution of natural gas. UGI estimates the cost of converting customers' appliances at \$20 per meter.

Applicant states that UGI presently distributes manufactured gas in the Hazleton area, and upon conversion of its system to natural gas, UGI proposes to discontinue operation of its manufactured gas plant.

Estimated natural gas requirements for UGI in the Hazleton area are:

	Peak day	Annual (Mcf at 14.7 psia)		
		Firm	Interruptible	Total
1960-61.....	875	249,400	5,600	255,000
1961-62.....	1,250	285,500	13,200	298,700
1962-63.....	1,400	340,800	13,200	354,000

¹ UGI estimates an additional 361 Mcf per day of liquefied petroleum gas will be required on the 1962-63 peak day.

Applicant states that the estimated cost of its proposed metering and appurtenant facilities is \$20,500, to be defrayed from cash.

This matter is one that should be disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on March 21, 1960 at 9:30 a.m., e.s.t., in a Hearing Room of the Federal Power Commission, 441 G Street NW., Washington, D.C., concerning the matters involved in and the issues presented by such application: *Provided, however*, That the Commission may, after a non-contested hearing, dispose of the proceedings pursuant to the provisions of § 1.30 (c) (1) or (c) (2) of the Commission's rules of practice and procedure. Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D.C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before March 8, 1960. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefor is made.

Notice of Application and Date of Hearing

FEBRUARY 17, 1960.

Take notice that Vaughey and Vaughey (Applicant), on February 9, 1959, filed an amendment to its original application in Docket No. G-10159 in which Applicant had requested a certificate of public convenience and necessity under section 7(c) of the Act. The amendment asks permission pursuant to section 7(b) of the Natural Gas Act to abandon service subject to the jurisdiction of the Commission, as hereinafter described, all as more fully represented in the amendment to the original application which is on file with the Commission and open to public inspection.

Applicant filed on March 26, 1956, an application under section 7(c) of the Act to make a sale of casinghead gas from the North Johnson Hill Field, Logan County, Colorado, to Kansas-Nebraska Natural Gas Company, Inc. (Kansas-Nebraska), under a contract between Applicant as seller, and Kansas-Nebraska as buyer, dated March 15, 1956. Hearing in this matter set for March 28, 1957, was postponed by Commission

notice issued March 19, 1957, on Applicant's request filed March 6, 1957. Temporary authorization to render service had been granted by airmail letter on July 2, 1956.

Applicant's amendment of February 9, 1959, requesting authorization to abandon the above sale states there is lack of production in commercial quantities due to depletion of casinghead gas.

This matter is one that should be disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on March 23, 1960 at 9:30 a.m., e.s.t., in a Hearing Room of the Federal Power Commission, 441 G Street NW., Washington, D.C., concerning the matters involved in and the issues presented by such application: *Provided, however*, That the Commission may, after a non-contested hearing, dispose of the proceedings pursuant to the provisions of § 1.30(c) (1) or (2) of the Commission's rules of practice and procedure. Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicants to appear or be represented at the hearing.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D.C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before March 14, 1960. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefor is made.

UNION ELECTRIC CO.

Notice of Declaration of Intention

FEBRUARY 19, 1960.

Public notice is hereby given that Union Electric Company (Declarant), of St. Louis, Missouri, has filed a declaration of intention pursuant to section 23(b) of the Federal Power Act (16 U.S.C. 817) to construct a hydroelectric project (Docket No. E-6927), to be known as the Taum Sauk Project and to be located on the East Fork of the Black River at its confluence with Taum Sauk Creek, in Reynolds County, Missouri. The proposed project will be a high-head pumped storage hydroelectric project and will consist of: A concrete gravity dam approximately 60 feet high above its foundations and approximately 450 feet long, including 350 feet of overflow spillway with free crest at elevation 750 feet above mean sea level, U.S.G.S. datum, creating the "lower pool" with a total surface area of approximately 370

acres in the East Fork of the Black River and Taum Sauk Creek; the water impounded in the lower pool (consisting of approximately 6,000 acre-feet of which approximately 4,000 acre-feet would lie between elevations 735 and 750) being pumped against a dynamic head of approximately 811 feet into an energy storage reservoir designated the "upper pool"; the upper pool, to be constructed on top of an adjoining mountain, to have a surface area of approximately 32 acres, and to impound approximately 4,000 acre-feet between elevations 1515 and 1625 within a rock-fill concrete-faced dike approximately 110 feet high; a 6,400 foot-long pressure tunnel and conduit, connecting the upper pool with a pumping and generating station on an open channel to the lower pool; two reversible units to pump water at night to the upper pool and to serve as generators during the day, each unit when generating to have a rated capacity of 175,000 kilowatts; two 138,000 volt transmission lines connecting the proposed installation with the Union Electric Company system.

According to the application, the proposed project will be operated for the purpose of carrying peak loads on Declarant's system, for providing emergency generating capacity, and as otherwise appropriate to the operation of its system.

The Commission will investigate the proposed construction and determine whether a license under the Federal Power Act is required or whether the project may be constructed merely upon compliance with State laws. Any communication from persons interested in this matter may be submitted on or before April 4, 1960, to the Federal Power Commission, Washington 25, D.C. The declaration of intention is on file with the Commission for public inspection.
